-

“There were a lot of structured intern events. There was a fundraiser that the interns worked on. We organized a carnival for students in one neighborhood. It was a fun way to meet and hang out with other interns while doing something good for the community. There was also the intern Olympics, where we competed against interns from other companies in a scavenger hunt around the city. It was a great way to meet other interns in the company and also other interns in the area.”

Erin McIntyre '12

Accounting Major

**Business Planning and Finance
Intern**
