

Ed 310: Curriculum and Methods

Indirect Instruction Lesson Plan

Sample technology entry:

XII. Technology:

- Website for teachers: www.lessonplanspage.com/math45.htm This particular page has math lessons on different areas of 4th and 5th grade curriculum, including 13 lesson plans about fractions.
- Website for more advanced students who already “get” this stuff: www.aaamath.com/fra57c1-mixed2fract1d.html. This site reviews how to change mixed numbers into improper fractions and provides skill-and-drill repetition of this activity.
- Fractions game: www.funbrain.com/cgi-bin/fob.cgi?A1=s&A2=1 . At Funbrain.com website there are lots of games about fractions, and this particular one, called “Fresh Baked Fractions” identifies equivalent fractions. (Equivalent fractions are part of the LTO.)
