

# *Group Presentation*

---

*This segment was created and used  
by students for their presentation  
on Assistive Technology.*

# *Questions & Stuff*

---

## Question #1

---

*True or False:*

People with walkers and canes can use a 2 oz. clip-on light to illuminate their paths at night.

## Question #1

*True or False:*

People with walkers and canes can use a 2 oz. clip-on light to illuminate their paths at night.

T-- This piece of assistive technology is known as the cane candle. It typifies the ways that a disabled person can live safer.

## Question #2

---

*True or False:*

Reduction of pressure on the skin surface is a concern of assistive technology.

## Question #2

---

*True or False:*

Reduction of pressure on the skin surface is a concern of assistive technology.

T-- Comfortable seating and positioning is a concern of assistive technology, including body stability, trunk/head support, and posture.

---

*You are enjoying  
this presentation  
immensely!!!!*

## Question #3

*True or False:*

The technology that the aliens provided Adolf Hitler when he impersonated Lee Harvey Oswald to shoot JFK with military support is classified as assistive technology.

## Question #3

*True or False:*

The technology that the aliens provided Adolf Hitler when he impersonated Lee Harvey Oswald to shoot JFK with military support is classified as assistive technology.

F—Cosmetics are not a concern of assistive technology.

## Question #4

---

*True or False:*

The technology that helped Stephen Hawking move as he thought out the answer to life, the universe, and everything is assistive technology.

## Question #4

---

*True or False:*

The technology that helped Stephen Hawking move as he thought out the answer to life, the universe, and everything is assistive technology.

T—Aids for mobility, such as wheelchairs - powered or unpowered - motor scooters, walkers, and death ray-armed, powered exoskeletons are forms of assistive technology.

## Question #5

---

*True or False:*

When Captain Hook was fighting Peter and menacing poor Wendy, the hook that he nearly smeared Peter's brain with is considered assistive technology.

## Question #5

---

*True or False:*

When Captain Hook was fighting Peter and menacing poor Wendy, the hook that he nearly smeared Peter's brain with is considered assistive technology.

T—Prosthetics and orthotics, such as fake limbs, peg legs, and hooks, are considered assistive technology.

## Question #6

---

*True or False:*

The technology that allowed Hulk Hogan to smash his opponents to the ground is considered assistive technology.

F—Let me tell you somethin' brother, that was Hulkamania running wild all over!!!  
Hulkamania will run over you next, brother!!!  
Cause nobody stops Hulkamania!!! Not you,  
and not the Iron Sheik!!!

## Question #7

*True or False:*

The technology that allows Geordi LaForge to tell the difference between a phased modulating loop flux and a plasma conduit (and boy oh boy do we know how bad THAT mistake can be) is considered assistive technology.

## Question #7

*True or False:*

The technology that allows Geordi LaForge to tell the difference between a phased modulating loop flux and a plasma conduit (and boy oh boy do we know how bad THAT mistake can be) is considered assistive technology.

T—Aids for the visually impaired, such as magnifiers, Braille print screens, and neural interfaces that show you everything better than you could have seen it with real eyeballs, are considered assistive technology.

## Question #8

*True or False:*

Driving a semi through one's apartment could be considered assistive technology.

## Question #8

*True or False:*

Driving a semi through one's apartment could be considered assistive technology.

T—Removing physical barriers, such as walls and other impediments to mobility, is considered assistive technology.

## Question #9

---

*True or False:*

The technology that allowed Tonya Harding to take the upper hand in her rivalry with Nancy Kerrigan is considered assistive technology.

## Question #9

---

*True or False:*

The technology that allowed Tonya Harding to take the upper hand in her rivalry with Nancy Kerrigan is considered assistive technology.

F—That was a pipe.

## Question #9

---

*True or False:*

The technology that allowed Tonya Harding to take the upper hand in her rivalry with Nancy Kerrigan is considered assistive technology.

F—That was a pipe. Duh.

## Question #10

---

Multiple choice:

If I have no arms and wish to use a computer, which of the following would most likely be the most appropriate piece of assistive technology?

A: A long stick to hold in my mouth and push keys with.

B: A thug, to point a gun at the first passer-by and force them to type for me.

C: A carrot. They are yummy and full of betacarotene and vitamin A.

D: A speech recognition software package, that will let me command the computer at conversational speeds.

## Question #10

---

Multiple choice:

If I have no arms and wish to use a computer, which of the following would most likely be the most appropriate piece of assistive technology?

D: A speech recognition software package, that will let me command the computer at conversational speeds.

## Question #11

---

Multiple choice:

If I wanted to talk on the phone, but I was a mute, which of the following might I find to be the best help?

- A: A keyboard speaker, which would say what you typed in.
- B: A thug, to point a gun at the first passerby and force them to talk for me.
- C: A puppy. Who doesn't want a puppy?
- D: Knowledge of Morse code.

## Question #11

---

Multiple choice:

If I wanted to talk on the phone, but I was a mute, which of the following might I find to be the best help?

A: A keyboard speaker, which would say what you typed in.

## Question #12

Multiple choice:

If I was immobilized from the neck down and worried about getting robbed, the type of assistive technology I should look into would be...

- A: The Department of Agriculture
- B: A thug, to point a gun at any robbers or would-be robbers
- C: Environmental Control Systems
- D: Abraham Lincoln's Beard

## Question #12

Multiple choice:

If I was immobilized from the neck down and worried about getting robbed, the type of assistive technology I should look into would be...

C: Environmental Control Systems

## Question #13

Multiple choice:

If I was deaf, but wanted to be awake at a certain time, what would be a piece of assistive technology that may be helpful to me?

- A: A piece of string tying your big toe to your neighbor's car. When he leaves for work, you'll know it.
- B: A thug, to smash your kneecaps when it's time to get up.
- C: A tape of Mozart.
- D: A tactile alerting system.

## Question #13

Multiple choice:

If I was deaf, but wanted to be awake at a certain time, what would be a piece of assistive technology that may be helpful to me?

C: A tape of Mozart.

## Question #13

Multiple choice:

If I was deaf, but wanted to be awake at a certain time, what would be a piece of assistive technology that may be helpful to me?

C: A tape of Mozart. Oh, wait, that won't work  
AT ALL...

## Question #13

Multiple choice:

If I was deaf, but wanted to be awake at a certain time, what would be a piece of assistive technology that may be helpful to me?

D: A tactile alerting system.
