

UTILITY FAILURE

The campus has a complex utility system. The possibility exists for a utility system failure of some nature and magnitude.

If you discover a **water leak, or other major utility failure**, call the Campus Safety Department by dialing **911** (24 hours a day) or the Physical Plant by dialing **ext. 7835**. (7AM-3:30PM, M-F)

Do not attempt to correct the problem on your own.

For non-emergency repairs or information, call Physical Plant Department at **ext. 7835**.

Power Outages

Lightning or other objects striking power lines can cause fuses to blow or breakers to trip. Before calling to report a power outage, please do the following:

- Make sure you haven't blown a fuse or tripped a circuit breaker.
- Wait 5 minutes to see if our equipment will automatically restore the service.

If a power outage blackout occurs, please follow these steps:

- Turn off or disconnect all motor-driven appliances and fixtures to avoid damage from electrical overload when the power is restored.
- The following buildings have emergency power generators which will run emergency and essential operations within the building during a power outage. Campus Safety, DeVos Field House, Martha Miller Center, Schaap Science Center, VanWylen/VanZoeren Hall
