

TRAIN DERAILMENT CHEMICAL SPILL

Because of the close proximity to the railroad tracks Hope College needs to be prepared to respond should a train carrying toxic chemicals derail. If there is a train derailment you will be notified on what to do next. Be prepared to:

- Stay upwind of the accident
- Prevent others from going outside to see what happened.
- Keep an eye on local news and the college website on what to do next.

1. <http://www.woodtv.com/>
2. WHTC – 1450AM – 392-3121
3. WTHS – 89.9AM

- Prepare (if asked to do so) to evacuate the area nearest the RR tracks and proceed to the college rally area located between the Schaap Science Center and Van Zoeren Hall or if inclement weather inside the Schaap Science Center and Van Zoeren and VanderWerf Halls. (see map below)
- Call **911** if you are trapped or need assistance in getting to the rally area.
