Identification Requirements

As mandated by Section 326 of the USA PATRIOT Act, LaSalle Bank is required to request and record information that identifies each person or legal entity that opens an account. Specifically, this Federal Law requires that we ask for your name, address, date of birth and other information, such as your tax identification number that will allow us to identify you. As a result, the Bank requires two primary pieces of identification issued by separate government agencies that are at least 90 days old and current. The Bank also accepts one primary and one secondary form of identification as outlined in the WorkPlaceDirect Application.
