NOTE:

If your class does not match one of the template meeting days or times, your exam is determined on the nearest matching day/time:

Example 1: If you class meets MTWF, your exam will go by the MWF template day/time, **NOT** the TR template day/time. Likewise, if your class meets MTR, your exam will go by the TR template day/time, **NOT** the MWF template day/time.

Example 2: Exams are based on your class **START** time. If your class start time does not match anything on the template, it will be based on the **NEXT nearest time**. For example, classes starting at 2:30pm (MWF) will use the 3:00pm (MWF) template day/time.
