

Important information about registration for students considering health professions

from Dr. William Mungall, pre-health professions advisor

I encourage you to consult the pre-health professions web-site for information about course selection, requirements, and things to consider as you plan your classes—<http://www.hope.edu/academic/pre-pro/programs.htm>

I have scheduled several group pre-registration sessions *for all first and second year students* with interests in health professions:

Wednesday October 28

7:00 PM	SciCtr 1000	Pre-dental students
8:30 PM	SciCtr 1000	Pre-medical students

Thursday October 29

7:00 PM	SciCtr 1000	Pre-PA (physician assistant) students
8:30 PM	SciCtr 1000	Pre-PT (physical therapy) students

Monday November 2

7:00 PM	SciCtr 1019	Pre-medical students
8:30 PM	SciCtr 1019	Students with an interest in any health profession (those listed above AND optometry, pharmacy, public health, chiropractic, occupational therapy, podiatry, etc.)

Junior and senior students and those who need individual help should make an appointment with Dr. William Mungall by signing up for an appointment on his schedule (on the bulletin board in the hallway just outside his office—Room 3126 in the Science Center). Dr. Mungall's schedule fills quickly, so please act promptly.
