

***potential SPECIAL ED majors:
please read this carefully***

- ▶▶ If you are *seriously* considering a major in **special education** (learning disabilities or emotional impairments), taking Educational Psychology (Educ 220/221) in your first year may be appropriate.

First year students seriously considering special education need to apply to the Education Department to be considered for early enrollment in Educational Psychology (EDUC 220/221). **Applications must be picked up in the Education Department Office** (second floor of Van Zoeren) **beginning Thursday, October 22nd, 2009, and are due by Wednesday, October 28th, 2009.** The Education Department faculty will review the applications and allow a limited number of freshmen to register for Educational Psychology in the spring semester. Students will receive e-mail notification from the Education Department.

Students interested in special education should also ***make an appointment with a special education professor*** (Professors Cherup or Finn or Cook or Kotkowicz—second floor of VanZoeren Hall) to explore scheduling options and planning.)

Thanks for your help and cooperation. Please contact the Education Department, x 7740, if you have questions.
