

WEATHER POLICY

If the student's respective school system is closed for the day due to weather conditions, the student is not expected to report for Upward Bound classes.

When an area's school district is closed because of weather conditions, the Upward Bound van will not pick up students from that school district and students are discouraged from driving their own cars to the tutoring session.

If the Holland Public Schools are closed due to weather, ALL Upward Bound classes will be canceled as well.
