

Wall of Fame Guidelines - DeWitt Tennis Center

This document details the specifics of the **DeWitt Tennis Center** Wall of Fame and what it takes to be put on and taken off the Wall of Fame.

1) There are two categories for the Wall of Fame.

1) HS State Champion

2) Midwest Qualifier

- 2) The HS State Champions is simple enough. If you win a state championship at any flight you will get on the wall.
- 3) Midwest Qualifier means that you made it into the singles draw at the Midwest Closed. This means you would have played the West Michigan Junior Qualifier and were selected from there.
- 4) Results used for the Wall of Fame date back to the spring of 2004 because that is when we started the full junior program here at the DeWitt Tennis Center
- 5) If a player has results dating earlier than 2004, those results will be listed on their picture on the wall. This is so they get credit for all they have accomplished.
- 6) Players must be full-time in our junior lesson program. They may be active at another club, but they must predominantly train here at the DeWitt Tennis Center. It is important that we do not take credit for developing kids that were developed at other clubs by other pros.
- 7) Players coming from other clubs and that earn a spot on our Wall of Fame after they are training predominantly here, will have their previous (before DeWitt) results listed on their picture. This is so they get credit for all they have accomplished.
- 8) Players coming from other clubs that do not earn a spot on the Wall of Fame while they train predominantly here will not be added to the wall.
- 9) If a player that is on the Wall of Fame should stop practicing predominantly here and start at another club, their picture will come off the Wall of Fame because we can longer take credit for their development.
- 10) Players that finish their junior careers with us and that have earned a spot on our Wall of Fame, will have picture will stay up on the Wall of Fame indefinitely.
